

Colleagues,

As the College continues its journey to Sugar Land, there will be many opportunities to hear information from reliable sources. This email is one of them.

We pledge to regularly update you on discussion points and events that have been planned, as well as answer any questions that you have about the College's move to the UH at Sugar Land campus.

You may be aware that Provost Short has appointed a Transition to Sugar Land Task Force, comprised of COT faculty and staff, as well as leadership from UH at Sugar Land. The Task Force is chaired by Dean Tony Ambler and Dr. Jay Neal, Associate Vice President, UH at Sugar Land. The group meets every other week. Its entire goal is a smooth transition from the Main Campus to Sugar Land. That's it. That will require an honest assessment of space, time, logistics, etc., as well as honest discussion with faculty, staff and, of course, our students.

There are four subcommittees for Transition Logistics, Student Success, Academic Transition & Future Growth and Communication.

We have created [this webpage](#) that will be updated frequently with events, activities, news and information, and the activities of the Task Force. Please bookmark it and check it frequently.

Big Change always brings with it Big Worries. To curb that, we've created an email address for ANYONE to ask ANYTHING about the move. Send your message or question to cotinsugarland@uh.edu. You **will** receive an answer.

This is an exciting time for the University and for the College. We are on this journey together and that is how we are going to be successful—together.

Talk to you again soon.

Dr. Anthony Ambler Dr. Jay Neal
Dean, College of Technology Associate Vice President, UH at Sugar Land

P.S. Discussions of a potential merger of the Colleges of Engineering & Technology continue. We will try to keep you informed as this plan develops.
