College of Technology Students,

As many of you are aware by now, President Khator has a vision for the College of Technology at the University of Houston at Sugar Land. Many of the College's programs have called Sugar Land home for the past few years and this fall we are beginning a transition phase. The expectation is for all [programs](#) and [departments](#) to be in Sugar Land by 2025.

During the transition phase, the [COT Transition to UH at Sugar Land](#) website will be routinely updated with timeline information, student services, events, news, and a [FAQ](#) page to answer frequent questions. The timeline also includes information about when specific courses will be offered in Sugar Land. Some additional resources include:

- [Division of Student Affairs and Enrollment Services](#) (DSAES)
- [Cougar Line Shuttles](#)

If you have specific questions about the transition, please reach out to cotinsugarland@uh.edu.

Kind Regards,
Jamie

Jamie M. Thomas, Ed.D. (she/her/hers)
