Azure Dev Tools for Teaching

Go to https://azureforeducation.microsoft.com/devtools
Click the Sign In button
Sign in using your Office 365 credentials (such as jcougar@cougarnet.uh.edu for the user name and your Cougarnet password)
Click View All button at the end of the Get Software row
Make sure Software is chosen on the left
Click in Search box above the names of the software and type in the software you need (such as Project) and press Enter
Click on the version of the software you want.
It should open a window on the right with a download button for the software and if a key is needed, there will be a View Key button you can click to get your product code
